

VLAKFONTEIN MINE

INTERNAL AND EXTERNAL ADVERT

POSITION: LOGISTICS and PROCESSING SUPERINTENDENT

DIVISION: PROCESSING PLANT and LOGISTICS

LOCATION: VLAKFONTEIN MINE

Purpose

This role is open as a result of the approved organisational structure and, the need to strengthen plant supervision which will improve safety performance, as well as coal quality management. Furthermore, this will address our commitment made to Eskom in the process of seeking coal supply suspension upliftment, which was imposed due to product quality related issues.

Qualifications

- Minimum of a diploma in Metallurgical Engineering or related.
- A minimum of 3 years supervisory experience in coal mine processing plant.
- Must have experience in dealing with Coal supply contracts.
- Must have experience in client relations and the management of the CQMP.
- Advanced Coal Preparation Certificate.
- Computer literacy and fluency with MS Office.
- Certificate of Fitness.
- Valid driver's license.

Responsibilities

- Identify and assess level of issue-based risk exposures in area of responsibility by considering exposures to the business, financial and legal issues, people, equipment, material, environment, process, etc.
- Consider the level of risk, apply mitigation, and implement control measures for risk.
- Manage SHEQ compliance within the Department through effective use of Toolbox talks.
- Monitor production quality across the plant, highlight areas of improvement and facilitate the implementation of corrective actions.
- Ensure compliance to all statutory inspections.
- Be responsible for the management of the entire plant operations.
- Allocating resources to meet production demand.
- Monitoring and adjusting production demand.
- Monitoring and adjusting production process to meet product quality specifications.

- Ensuring quality feed is given to the plant.
- Ensuring accurate interpretation of product test sample results to ensure the required product quality.
- Managing departmental budget costs and implementation of cost saving initiatives.
- Coordinating maintenance activities.
- Ensure Eskom CQMP compliance.
- Ensuring external and internal resources are correctly allocated in terms of time and skills needed.
- High level management reporting.
- Lab management and accurate reporting.
- Washability report analysis.
- Plant related report database maintenance requirements.

Please submit a detailed CV with certified copies of your qualifications to:
AERecruitment@aemfc.co.za

The closing date for the above position is **26 April 2024**

Applications received after the closing date will not be considered.

Shortlisted candidates will be subjected to reference and background checks.

In order to consider any application for employment, AEMFC will have to process your personal information. The documents will solely be used for recruitment purposes. The Protection of Personal Information Act, 4 of 2013 (POPIA), provides that when one processes another's personal information such collection, retention, dissemination, and use of that person's information must be done in a lawful and transparent manner.
